

Coronavirus Covid-19 Boatyard Arrangements

We are pleased to detail below the revised arrangements at the boatyard to comply with Government instructions to help keep us safe and limit the spread of Coronavirus COVID-19.

- 2 metre social distancing to be observed. Please be mindful of other boat owners and members of the boatyard crew. The main gates to the boatyard will remain closed to limit the number of vehicles in the yard to give more space for social distancing.
- Liquid soap and hot water is available in the toilets for hand washing. We will check the soap dispenses on a regular basis but please let us know if stocks run low.
- The boatyard crew will only attend the boatyard for boat movements and maintenance. However, we will be working from home when not at the boatyard so please feel free to contact us at enquiry@quaylaneboatyard.co.uk We will also check phone messages and get back to you as soon as possible.
- In line with the most recent Government instructions, overnight stays on board are allowed for members of the same household groups.
- Boat owners are welcome to instruct one contractor to work on their boat and meet with the contractor at the boatyard in case of need.
- Please refer to the latest Notices to Mariners at the Queens Harbour Masters website for details of navigation in the harbour.
